No much time this week end for this contest

I was not at home Sunday

Hard conditions on 40m and especially on 80m because a very stormy weather

Thanks to all who worked me

See you again next year

GM1TBW:

GREAT FUN, I PARTICULARLY LIKE THE 8-HOURS ON, 8-HOURS OFF FORMAT.

GU0SUP:

Conditions better on Sunday, so I opted for the 6-hour class.  
On Saturday, the bands were in very poor shape.  
Had more fun than I expected, and enjoyed the time.  
My thanks to DRCG for sponsoring this contest!

HZ1PS:

Difficult to fit the 3 sessions in with Sunday as a work day so entered the 6 hour category. Enjoyed it but think conditions on the Saturday not the best. Thanks to all for the contacts and to DRCG for sponsoring.

LI5LJA:

It's a lot of camouflated selfspotting out there. VA2UP have a team of ve2's spotting every frequence change he take. Look's more and more like a deal,another word for it is cheating.

LX1ER:

Between wedding from a friend , and some work to do , i had only 6 hours time . sorry , because as a member of this great group i think 24 hours operation is a must will do better next year .

M5Z(JK3GAD):

It is nice to see exchange is simplified and meaningless "UTC" is finally eliminated. Since I used Win-Test, score above is not accurate.
